

Keyboard Replacement Kit

P/n DB2-KBA

\$160.00

On-line Special
\$125.00

Included in kit:

- 1 Keyboard
- 1 Keyboard Cover
- 2 Keyboard Adapters
- 2 10-32 Button-head Screws
- 1 Stainless Steel Keyboard Retro-fit assembly

Installation Instructions:

1. Disconnect all plugs to original keyboard assembly.
2. Remove 4 screws securing cover.
3. Remove original keyboard assembly by removing 4 screws to pendant.
4. Insert 2 Button-head screws into 2 upper holes.
5. Using lower 2 original screws, attach new retro-fit assembly.
6. Holding level, mark left end of pendant for holes for new assembly.
7. Drill and tap 2 10-32 holes where marked in left end of pendant.
8. Attach remaining 2 original 10-32 screws to secure new assembly.
9. Plug in keyboard using the provided adapters, tie-wrap extra cable.

NOTE: You may want to install the keyboard w/cover into assembly before step #8.
